ESG & Sustainability Advisory

That Protects Value and
Builds Investor Confidence

Creating Sustainable Value

Tel +852 2603 6690
1F, 1 Queens Road West, Sheung Wan, Hong Kong
www.pacificriskadvisors.com

Independent ESG and sustainability risk advisory
for investors, lenders and operating businesses.

Asia-based. Globally connected.

Why ESG is Now a Commercial Priority

ESG pressure is no longer just reputational — it affects capital, valuation and exit.

- **Investor diligence is deeper, faster and more evidence-driven**

  LPs, lenders and investment committees now expect clear documentation of ESG risk identification and management — not just policy commitments.

- **ESG gaps affect valuation, financing and exit readiness**

  Climate, supply-chain, labour and governance gaps are increasingly priced into transactions and can delay or complicate exits.

- **Portfolio companies need practical systems, not just policies**

  Boards and management teams need right-sized tools, KPIs and reporting they can actually execute — without a large internal ESG function.

- **Regulation and lender expectations continue to tighten**

  IFC, ADB, UN PRI and emerging disclosure frameworks are raising the bar on what 'credible ESG management' looks like across Asia and beyond.

Why Pacific Risk Advisors

Independent Hong Kong-based ESG and sustainability risk advisory firm.

✓ **30+ years of international experience**

Senior advisors with deep track records across the Europe, MENA, Asia and LATAM — covering finance, real estate, manufacturing, energy, agric, infrastructure and supply chains.

✓ **Practical advisory, not just policy documents**

We link ESG performance to risk reduction, lender expectations and value creation — turning strategy into workable action plans that management teams can execute.

✓ **International advisors + local delivery**

Senior international advisory paired with local resources for on-the-ground delivery across Asia Pacific and beyond.

✓ **Global reach through the Inogen Alliance**

Associate of the Inogen Alliance with access to 6,000+ professionals across 150+ countries — enabling scalable, multinational delivery under one advisory lead.

✓ **Aligned with responsible investment standards**

PRI signatory. Work aligned with IFC Performance Standards, ADB requirements and leading international lender expectations.

What Clients Receive from PRA

Four outcomes that convert ESG ambition into measurable performance.

Sharper Risk Visibility

Identify material ESG exposures — climate, labour, governance, supply chain — before they escalate into financing, compliance or reputational issues.

Actionable Mitigation

Turn gaps into clear priorities with owners, timelines and monitoring tools. A practical roadmap management teams can execute, not a shelf report.

Investor-Ready Reporting

Equip boards, investors and lenders with decision-useful ESG metrics and disclosure — benchmarked against IFC, ADB, PRI and market expectations.

Execution Support

Build governance, ESMS and training that help teams deliver ESG commitments — from 100-day plans through hold-period oversight to exit readiness.

Who We Serve

Financial institutions and operating businesses across all industries in Asia Pacific and beyond.

Private Equity Funds

Diligence support, ESMS build-out, KPI frameworks, portfolio monitoring and exit readiness across the full investment lifecycle.

Banks & Development Finance

ESMS design, policy development, credit risk frameworks and capacity building aligned with IFC, ADB and international lender requirements.

Investment Funds & Asset Managers

Portfolio-level ESG screening, reporting frameworks, LP-facing disclosure and monitoring systems for diverse asset classes.

Real Estate & Infrastructure

Green building assessments, property condition reviews, climate risk screening and EHS compliance for portfolios across Asia.

Insurance & Corporate Finance

Risk identification, ESG due diligence, climate scenario analysis and governance advisory for underwriters and corporate finance teams.

Manufacturing, Logistics & Supply Chain

Operational EHS assessments, compliance reviews, carbon footprint analysis and ESG system implementation across Asia-Pacific operations.

Core Advisory Services

Strategy, transaction and operational support across the full ESG agenda.

Strategy & Transaction Support

- ESG strategy, policy and framework design
- ESG due diligence and pre/post-transaction screening
- ESMS design, upgrade and implementation
- Climate risk and carbon footprint integration
- Green finance and credit risk frameworks
- Stakeholder mapping and engagement
- Portfolio ESG monitoring, metrics and reporting
- SDG alignment and impact fund advisory

Operational & Implementation Support

- Operational EHS and social risk assessments
- Asset and portfolio EHS/WHS assessments
- Compliance reviews and good-practice gap assessments
- Renewable energy and efficiency planning
- Management training and capacity building
- Alignment with IFC, ADB and similar standards
- Ongoing retained ESG Risk Advisor support
- Supply chain risk and ESG integration

Supporting the Full Investment Lifecycle

PRA can be engaged at any stage — or retained across the full journey.

01

Pre-Deal

- ESG screening & red-flag review
- Exclusion list review
- Materiality mapping
- Diligence scope design
- IC/LP input materials

02

Deal Execution

- Full ESG due diligence
- Management Q&A support
- Risk allocation input
- Post-close ESG action planning

03

Ownership & Portfolio

- 100-day ESG plan
- ESMS build & upgrade
- ESG implementation
- KPI tracking & reporting
- Board & LP updates

04

Exit Readiness

- Vendor diligence preparation
- Data room readiness
- ESG value story development
- Lender-facing documentation

PRA can also be retained as your ongoing ESG Risk Advisor — providing consistent coverage across all stages.

Retained ESG Risk Advisor Model

A flexible extension of your investment, risk or management team.

- **Immediate access to specialist ESG judgment**

  On-call advisory during active deals, portfolio reviews and board discussions — without the cost of building a dedicated in-house team.

- **Independent, consistent perspective**

  Cross-portfolio challenge on red flags, management responses, action tracking and emerging issues — grounded in investor and lender expectations.

- **Ongoing portfolio and transaction support**

  Regular review of ESG performance, gap closure, KPI tracking and lender or LP reporting — with continuity across the investment lifecycle.

- **Scalable specialist access**

  Ability to draw on technical specialists, sector experts and thematic advisors as issues become more complex or geographically broad.

- **Ideal for funds, sponsors and operating companies**

  Best suited to managers seeking repeatable ESG coverage across new deals, hold-period priorities, portfolio monitoring and exit preparation.

Regional Reach, Global Delivery

One advisory lead — with specialist depth across 150+ countries.

6,000+
Professionals via Inogen Alliance

150+
Countries with project capability

30+
Years of senior advisory experience

5,000+
PRI signatories, US$ 121T in AUM

Inogen Alliance — global EHS delivery platform with multinational capability in 150+ countries and 6000+ staff.

PRI Signatory — advisory work aligned with responsible investment principles used by institutional investors.

Intensel Climate Analytics — asset-level CVaR and scenario analysis to 2030, 2050 and 2100.

Selected Advisory Experience

Track record across investors, funds, financial institutions and operating businesses.

Long-term ESMS mandate — DEG (since 2016)

Trusted technical assistance advisor to DEG across multiple contract cycles. ESMS design, upgrade and implementation for banks, private equity funds, insurers and NBFIs across Asia, Europe and Latin America.

ESDD & ESMS — CGIF / ADB (data-centre group, HK & Malaysia)

ESDD and ESMS implementation support for a regional data-centre group, delivered to ADB credit guarantee facility standards.

Private equity fund ESG advisory (Malaysia, India, Indonesia)

Outsourced ESG advisor to multiple Asia-based PEFs. ESG and sustainability risk systems developed for three funds including an Impact Fund, covering infrastructure, food & agribusiness and mining.

Institutional ESMS capacity building — Banks & FIs (APAC, MENA + LATAM)

ESMS design and training for banks and financial institutions in Mongolia, Nepal, Vietnam, China, Chile, Peru and Mexico.

Real estate and infrastructure portfolio advisory

E&S retained advisor to China-based real estate fund (12+ assets). Green building assessments and sustainability advisory in HK, Vietnam, China and Thailand, Philippines.

Industrial and manufacturing due diligence

Acquisition, divestiture and operational reviews across agritech, solar & wind, ports, shipping, textiles, food & beverage, healthcare, semiconductor and extractives across Asia.

Additional references and case examples available for specific sectors and jurisdictions upon request.

Sector Depth Across Asia Pacific

Broad capabilities — with deep experience in the sectors most relevant to financial institutions.

Financial Institutions

Banks, PE funds, DFIs, insurers, NBFIs — ESMS, credit risk, reporting

Real Estate

Green buildings, PPCAs, portfolio reviews, EHS compliance

Infrastructure

Manufacturing & Industrial

Textiles, food & beverage, automotive, electronics, chemicals

Logistics & Supply Chain

Marine, land transport, warehousing, distribution

Energy & Resources

Oil & gas, coal, mining, petrochemicals, renewables

Agribusiness & Food

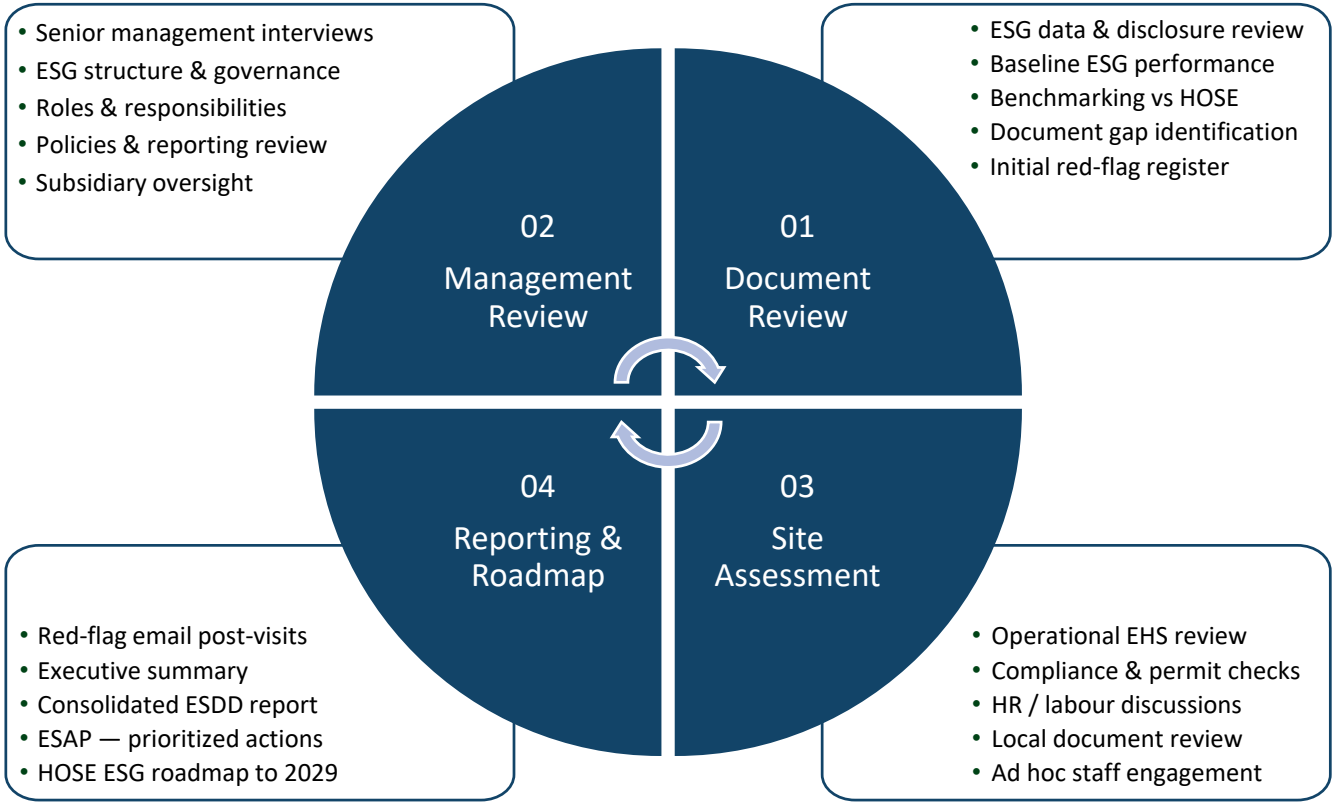

Agriculture, aquaculture, horticulture, processing

Waste & Environment

Landfill, wastewater, site investigation, contamination

ESDD Methodology

A structured four-phase process — from desk review to actionable roadmap

Key ESDD Assessment Areas

Comprehensive environmental, social and governance coverage.

ESG Governance & Management

- ESG structure, roles and oversight
- Board-level ESG awareness
- Policies, codes of conduct
- ESG reporting and data quality
- Subsidiary management and cascading

Environmental & EHS Compliance

- Environmental permits and approvals
- Waste & wastewater management
- Air emissions and odour control
- Hazardous materials handling
- Climate risk identification
- Occupational safety

Social & Labour Standards

- HR policy and labour code compliance
- Working hours, wages, contracts
- Worker health and safety systems
- Grievance mechanisms
- Ad hoc staff discussions on-site

Sector-Specific Issues

- Animal welfare policies and practice
- Antibiotic use and governance
- Feed additives and supplements
- Carcass disposal and management
- Feed and livestock traceability

Regulatory & Listing Alignment

- Exchange ESG reporting requirements
- Exchange listing ESG standards
- Disclosure expectations
- IFC Performance Standards alignment
- Maturity matrix vs Exchange targets

ESAP & Roadmap Outputs

- Red-flag prioritisation
- Prioritised ESAP with action owners
- ESG roadmap
- Investment and transition planning
- Ongoing retained advisory options
